## **FOR IMMEDIATE RELEASE**

### **SkyWest Celebrates 29 Years of Service in Cedar City, Utah**

**St. George, UT, June 21, 2001** - - SkyWest Airlines, a subsidiary of SkyWest, Inc. (Nasdaq: SKYW), is pleased to be celebrating 29 years of service in Cedar City, Utah. SkyWest currently operates four daily departures from Cedar City.

The “Festival City” has played a key role in the operations of SkyWest since the Airline began service in 1972. At the time, SkyWest’s main purpose was to carry business travelers between Northern and Southern Utah. St. George, Cedar City, and Salt Lake City were SkyWest’s only destinations during the first year of service.

“Today, the Customer Service counter at Cedar City boasts over 100 years of airline experience,” said SkyWest spokesman David Clark. “The amount of positive customer feedback we receive regarding the Cedar City station reflects the experience and dedication of the personnel there.”

By providing daily through-fares from Cedar City to locations such as Seattle, Portland, Los Angeles and Denver through Delta’s Salt Lake City hub, SkyWest allows Cedar City residents to save money and fly directly from their home town airport. This has allowed many business owners to make Cedar City their home base. Businesses large and small, from major corporations to the solitary contractor, have found success in the tranquil atmosphere of Cedar City.

“Cedar City is a part of SkyWest history and tradition and still plays a key role in connecting Southern Utah to Salt Lake City and destinations worldwide,” commented SkyWest Director of Marketing, Alison Gemmell. “We boarded over 9,000 passengers in Cedar City last year. Many travelers are beginning to realize that they can save time and money by flying directly from Cedar City, rather than driving to airports in Las Vegas or Salt Lake City.”

This press release, as well as past press releases, can be accessed on the SkyWest Internet site at <http://www.skywest.com>.
