SkyWest Airlines Adds the Aeromexico Code to Select Delta Connection Flights

For Immediate Release

ST. GEORGE, Utah, November 3, 2004 – SkyWest Airlines, a subsidiary of SkyWest, Inc. (NASDAQ: SKYW), is pleased to announce a new code-share agreement with SkyTeam member Aeromexico. The code-share arrangement will feature approximately 13 SkyWest Delta Connection destinations from their Salt Lake City hub.

“Aeromexico and Delta Connection passengers in these select communities will now have the equivalent of single-carrier service to destinations throughout the United States and Mexico,” said Steve Hart, Vice President of Market Development for SkyWest Airlines. “SkyWest and Aeromexico will be working together to ensure that customers receive excellent service when traveling between the two carriers.”

“It is our mission at Aeromexico to provide our passengers with the highest levels of service and convenience,” said Luis Del Rio, Vice President of Aeromexico, International Division. “We are confident that our new code-share relationship with SkyWest Airlines will be met with a positive response from our mutual customers, who will now have even greater choice when traveling to Mexico than ever before.”

The agreement will be executed seamlessly for passengers, and allows Aeromexico to sell seats on SkyWest flights providing customers increased availability to the Delta and Delta Connection network. The partnership will also offer increased coordination between the airlines to allow for more convenient connection opportunities, and reciprocal access to Delta’s SkyMiles and Aeromexico’s Club Premier frequent flyer programs.

About Aeromexico:
